

PROBLEM STATEMENT #56 | Media, Events & Community Peer Skill Exchange & Mentorship Network

USE-CASE FLOW SPECIFICATION

UC-04 – Confirm Session Completion

NAME – ANUSHKA P

SRN – PES1UG24CS075

SECTION – B

Use Case

Confirm Session Completion

Preconditions

- A Learner Member and a Skill Mentor have participated in a skill-teaching session.
- The teaching session has been recorded and is ready for completion verification.
- The participants can provide the required confirmation of session completion.

Main Success Scenario

1. The Learner Member and Skill Mentor complete the agreed skill-teaching session.
2. The participants provide the required confirmation that the teaching session has been completed.
3. The system receives and checks the completion confirmation.
4. The system verifies that the teaching session has been completed successfully.
5. The system changes the session status to Completed and Verified.
6. The system updates the relevant time-credit records.
7. The system credits 1 hour to the Skill Mentor's time-credit balance for the verified teaching session.
8. The system records the completed session so that mutual feedback and rating validation can be performed.
9. The system records the successful completion status for the participating members.
10. The use case ends successfully.

Alternate Flow

Scenario 1 – Session Not Verified

- . 3a. Confirmation is not received or the session cannot be verified.
- . 3a1. The system does not mark the session as Completed and Verified.
- . 3a2. The 1-hour time credit is not transferred to the Skill Mentor.
- . 3a3. The session remains pending until the required confirmation is provided; the use case returns to the confirmation step.

Postconditions

- The teaching session is marked as Completed and Verified.
- The Skill Mentor receives the corresponding 1-hour time credit.
- The completed session is recorded for mutual feedback and rating validation.
